The example deployment is based on a design which meets a set of predefined requirements as listed in the System Requirements section of this guide.

Layer 2 Leaf & Spine Design and Deployment Guide

Set the router-id to the IP address of the Loopback0 interface configured. On Arista switches, the default BGP administrative distance is set to 200, regardless if it's eBGP or iBGP. As best practice, we will set the eBGP distance to 20, and keep iBGP distance at 200, giving preference to the eBGP routes. # spine1.
