### General Overhaul Of Engine

In most general aviation applications, this overhaul interval is a recommendation only and is not mandatory by regulation. The engine is inspected, repaired as necessary, and returned to service based on whether it meets maintenance and performance requirements.

### Engine Overhauls - AOPA

An overhaul means taking the engine out of the car, and taking it apart to get to the insides, particularly the pistons, piston rings, rods and bearings, which all need to be replaced with new parts. The engine is like an air pump, and when the piston rings and bearings are worn out, air doesn't get pumped as efficiently as it did before.
