Official Mopar Site | Owner's Manual

The installation manual should also explain how to bypass the shock sensor during remote start. Because if I remeber correctly, the 300esp has the shock sensor built into the brain. The only way to bypass it is by using the status output wire from the 551t and connecting it to the blue instant trigger wire on the 300esp.

Valet 551T vs. Viper 300ESP

I downloaded and copied off the installation manual from the site you gave me. I took it to my technician and it turns out that I have a previous version of the 551T. My unit does not have its own led. It does not have the 2 pin connector to plug in the program switch. Instead mine has DIP switches in order to program it.
